NEED HEALTH INSURANCE?

Affordable, Private Health Insurance Plans Are Available

Local health Navigator at DMHC is here to help you sign up- free of charge

The new health insurance marketplace, where you can compare and shop for private health insurance plans, is now open.

DMHC is committed to meeting your health care needs. That's why we've trained local health Navigators to help you "navigate" the new Affordable Care Act. Local health Navigators are health professionals that live and work in Daniels County and are here, free of charge, to help you understand what insurance plan is right for you and your family.

Many Montanans have already signed up for a variety of affordable health insurance options that are now available under the Affordable Care Act and you may find that you qualify for tax subsidies or tax credits to help you buy health insurance.

Navigators are available to meet at a time that is convenient for you so make a plan to schedule an appointment with your local navigator.

Call us today at (406) 487-2296 or visit www.healthcare.gov or www.montanahealthanswers.com for more information.

We look forward to working with you to find the health insurance plan that meets your needs.
